

Dep. of Agr., Feb. 17, 1892

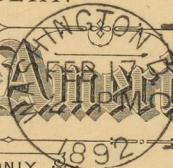

Dear Sir:

We learn with great sorrow of Dr. Watson's slim chances of recovery. I have never seen Dr. Watson personally, but have become greatly attached to him through our correspondence, in which he showed himself very kind and friendly. I heartily hope he will recover. If you can, please give him my heartfelt sympathy in his illness.

Very truly yours,
John M. Holzinger,
Assistant Bot.
